Believe It Or Not!!

A British woman celebrated her 99th birthday by going wing walking -- and becoming the oldest person to ever do the stunt.

Helga Duffy said she was inspired to attempt the Guinness World Record for the world's oldest wing walker when she news coverage of previous record-holder Betty Bromage performing the feat at the age of 97.

Duffy's wing walk was originally set to take place on her birthday, Sept. 23, but was delayed to Oct. 16.

A Guinness World Records adjudicator was present at RFC Rendcomb Airfield in Cirencester, Gloucestershire, to confirm Duffy's record and present her with a certificate.

TECHNICAL ANALYSIS

	SUPPORT	SPOT	Δ	RESISTANCE	COMMENTS
EUR/USD	1.0917 - 1.1050	1.1230	0.00%	1.1240 - 1.1460	EUR/USD Trades near 1.1230, with the euro under pressure from renewed dollar demand and escalating political unrest in France, raising concerns over the country's fiscal outlook and bond market stability. Today, ECB and FED officials' remarks will draw attention, alongside the developments in France and shifts in risk sentiment.
USD/JPY	157.00 - 158.00	158.10	0.16%	159.00 - 160.00	USD/JPY The pair remains sensitive to the US-Japan yield differential, with dollar movements and expectations for the BoJ's policy outlook likely to drive trading. However, the risk of Japanese intervention and expectations of further monetary tightening could limit gains. Market players should closely monitor US Treasury yields and Japanese policy signals for further direction.
GBP/USD	1.2825 - 1.3026	1.3330	0.23%	1.3380 - 1.3420	GBP/USD Holds near 1.3330 as sterling remains supported by expectations of a tighter BoE policy stance and UK economy's better-than-expected performance. Attention will turn today to the BoE and FED chatters, ME developments and broader market sentiment ahead of tomorrow's UK employment data that could provide the next catalyst for the pair.
USD/CHF	0.8143 - 0.8207	0.8245	-0.30%	0.8345 - 0.8450	USD/CHF declined near 0.8245 amid fading expectations of further Fed tightening. The Swiss franc continues to benefit from safe-haven demand, limiting the pair's recovery. With no major economic releases scheduled today, the geopolitical developments, Fed signals and changes in global risk appetite could drive near-term price action.
